JNF CONNECT SYSTEMS

É um sistema modular para criar estruturas simples, como mobiliário, elementos decorativos, divisórias estruturais, etc.

Os elementos são produzidos em aço inoxidável aisi 304 por fundição, o acabamento é raw, obtendo um aspeto mate e uma sensação suave ao toque. Adicionalmente, estes componentes podem ser produzidos com acabamento pvd em diferentes cores como preto, cobre ou dourado.

O sistema de fixação é muito fácil, apenas com parafusos allen que garantem o aperto necessário de todos os elementos.

Is a modular system that is used to create easy structures like furniture, decorative elements, structural fences, etc.

The elements are produced in stainless steel AISI 304 by casting, the finish is RAW getting a matte look and smooth touch feeling. Additionally these components can be produced with PVD finish in different colors like deep black, copper or gold.

The fixing system is very easy, just Allen screws make the necessary tightening of all elements.

Es un sistema modular para construir estructuras simples, como mobiliario, elementos decorativos, divisiones estructurales, etc.

Los elementos son producidos en acero inoxidable AISI 304 por fundición, el acabado es RAW obteniendo un aspecto mate y una sensación suave al toque. Además, estos componentes se pueden producir con acabado PVD en diferentes colores como negro profundo, cobre o dorado.

El sistema de fijación es muy fácil, sólo tornillos Allen hacen el apriete necesario de todos los elementos.

BATENTES / DOOR STOPPERS / TOPES DE PUERTA.

BATENTE DE PAVIMENTO COM RETENTOR MAGNÉTICO / DOOR STOPPER WITH MAGNETIC RETAINER / TOPE DE PUERTA CON RETENEDOR MAGNÉTICO.

Sistema magnético com curso, para ajuste automático a diferentes distâncias da porta ao pavimento e simultaneamente, reduz a precisão na instalação. Ao aproximar a porta do batente, o magnético sobe e reduz a velocidade do fecho da porta até à sua imobilização.

Magnetic system with automatic height adjustment to different distances from the door to the floor and simultaneously, reduces installation accuracy. When approaching the door to the stopper, the magnetic rises and reduces the closing speed of the door until it stops.

Sistema magnético con ajuste automático de la altura a diferentes distancias de la puerta al suelo y al mismo tiempo reduce la precisión en la instalación. Al acercarse la puerta del tope, lo magnético empieza a subir y ralentiza la velocidad de cierre de la puerta hasta sólo retención.

MAGNETIC
